SUMMARY

Motivated 3rd-year Computer Engineering student with a strong interest in full-stack web development and problem-solving. Proficient in building scalable web apps using the MERN stack and Next.js. Experienced with both SQL and NoSQL databases, and exploring Prisma ORM for optimized interactions. Solid foundation in Java-based DSA, GitHub collaboration, and version control. Quick to learn and eager to contribute to team success.

EDUCATION

B.Tech in Computer Science & Engineering, GITAM University, Hyderabad (2022 - Present)

Intermediate, Narayana Jr. College, Madinguda (2020 - 2022)

TECHNICAL SKILLS

Languages: Python, Java, C/C++, HTML, CSS, JavaScript

Developer Tools: Git, VS Code, Atom, Eclipse

Frameworks: React.js, AngularJS, Flask, Entity Framework, Node.js

Cloud/Databases: SQL, RESTful APIs, MongoDB

Soft Skills: Adaptability, Storytelling, Problem Solving, Time Management, Networking, Collaboration

PROJECTS

Thinkify – Community Platform A vibrant space that brings together individuals from diverse backgrounds to foster meaningful conversations. Encourages idea exchange, knowledge sharing, and collaborative learning in an inclusive environment.

CERTIFICATIONS

Python Essentials – Cisco Networking Academy

Data Analytics Virtual Internship – Deloitte

Cybersecurity Virtual Internship – Tata Group

Advanced Software Engineering Job Simulation – Walmart Global Tech
